

# *Silent Knight*

*For Sophie, life is about to change again...for the worse.*

A small plane crashes in the Rockies, and the only two survivors, Jack and Sophie, help each other live until rescue arrives, seven days later. Only Sophie goes on to pick up the pieces of her life, which has now been irrevocably changed by big, gentle Jack's love...and death.

But Sophie learns that Jack's death didn't close that chapter of her life, after all. A drifter who carries a deadly secret, a corrupt and desperate police chief and her pressure-cooker life as a single mother in a small town plunge her head-deep into the after-shocks caused by those seven days in the mountains. The consequences will reach out to rock state governors, district attorneys, and

one of the deadliest crime lords in the land, and all of them have reason to react. For Sophie, life is about to change again -- for the worse.
